# Yasoda Piyumal

## FRONTEND WEB DEVELOPER

Web Developer with 7+ years of experience building responsive, SEO-friendly websites using WordPress, Wix, Shopify, and Webflow. Skilled in UI/UX design and creating modern, user-focused digital experiences. Fast learner and tech enthusiast based in Germany, passionate about delivering high-quality web solutions.

## PROJECTS

### RESTAURANT STAFF MANAGEMENT WEB APP

Developed a full-stack web application for restaurant staff management with three interfaces:

- **Admin Panel:** Assigns staff shifts, sets hourly wages, and auto-calculates salaries.
- **Staff Dashboard:** Allows employees to view assigned shifts, log hours worked, and track real-time salary updates.
- **Client Interface:** Public-facing website showcasing restaurant details.

The system streamlined shift scheduling, improved transparency, and reduced manual salary calculations.

### GRILLS RESTAURANT WEBSITE (SKILL DEVELOPMENT PROJECT)

Built a responsive and visually appealing restaurant website as a personal project to sharpen web development and UI/UX design skills. The site includes an interactive menu, reservation form, and mobile-optimized layout. Focused on clean design, usability, and improving front-end development proficiency.

### Drako's Donut Forge (In Progress)

Currently developing an interactive web feature for a local donut shop, Drako's, where customers can vote and submit ideas for the next custom donut creation. The goal is to boost customer engagement and brand loyalty through a playful and dynamic user experience. Focused on front-end interactivity and community-driven design.
